## CITIES TABOO FOOD WASTING

#### Products Hitherto Thrown Away Now Swell Nation's Resources, Says Holland.

At the recent meeting of the American Chemical Society in this city some of the members spoke both publicly and in private conversation with something like enthusiasm of the new spirit which characterizes the United spirit which characteries the Office. States respecting the utilization of farious products which heretofore were not even dignified by being call-ed waste products. Those who are leaders in the new field of the electrochemical industry, conspicuous among them being Dr. Edward G. Acheson believe that within a few years scien and capital in combination will dis cover and utilize methods by which many things which formerly were ut-terly destroyed by burning or casting into the sea because it was believed Coeden Co. the were absolutely worthless, will be Coeden pfd A few days ago announcement was made of the enlargement of the capital stock of a corporation whose product is to be alcohol designed for industrial uses. Within a few years men of science believe that hundreds of thousands of tons or cartloads of material which heretofore have been yed as worthless will be, by cal methods, probably aided by city, converted into industrial

Great Waste of Food.

which now are going to waste. That was the idea of the late Judge Henry Hilton, of New York, who at one time offered to the city authori-ties to take over the removal of New garbage provided he was allowed to establish certain plants in which the contents of the garbage could be recovered for commercial purposes. Judge Hilton said to the present writer, that New York City's

and lime phosphates. Garbage grease furnishes a great deal of glycerin, approximately 12 per cent, and this is an important commodity in the manufacture of explosives. New Orleans, which is a very progressive city, is to safablish, applications of the commodities of the commodit stablish a sanitary reduction plant and will probably receive a large in-

is of no use which contain possibilities of commercial value that may be immonstrated by science in combina-ton with capital. There is nothing ion with capital. There is nothing hat should go to waste. And one of

The president of the Texas Ma-Maxim Muni-terial company, a large industrial Maxim Muni-organization at Dallas, has within a Merrit Oil . few days written a communication to Richard T. Edmonds, editor of the Manufacturers Record of Baltimore. This correspondent, C. W. Martin, makes the amazing statement that in Texas alone there is wasted every year forty million dollars worth of the choicest feed for the dairy and beef. That is to say, the farmers of Texas burn up each year the leaves and stalks of corn which might be utilized for feeding cattle and for dairy purposes and which, in the aggregate, are worth fouty million dollars. One of the effects of the war will undoubtedly be the realization by the farmers, as well as by sil others, of the fact that we have allowed to go to waste process which, properfy utilized, would in each year have a commercial value of hundreds of milling the standard Motors.

lions of dollars.

When at the suggestion of Mr. Hoover, who looks at the food situation and the invention of waste from all points of view, a critical examination of the garbage cans of Chicago was made, it was discovered that a considerable percentage of the contents of these cans was available for food purposes, indirectly available. food purposes, indirectly available United States Steams per state of the penhaps, because this garbage could be feel to 8 ine and to poultry. C. O. United Zine Eartlett who is president of a large Utah Petroleum industrial corporation of Cleveland Ohio, is of the opinion that the gar-large care of the Visital State Steams of the Wish-Martin Aero. bage cans of the United States, if properly utilized, could furnish very Wyoming Petroleum commercial commodities NEW YORK STOCK EXCHANGE.

carbage, properly handled, should not ost the city a cent for its removal and Am. Sugar cost the city a cent for its removal and possibly might return a considerable income to the city. New York paid am. Sugar Am. Fel. & Tel. no attention to Judge Hilton's proposition. It did not interest the city authorities. Mr. Bartlett in his recent communication states that there is hardly anything in the United States.

sition. It did not interest the city authorities. Mr. Bartlett in his recent communication states that there is hardly anything in the United States at this time more important than the utilization of garbage. Nevertheless thousands of tons of it are being burned or dumped into the sea every day.

\*\*Utilizing Waste.\*\*

(Some of the American communities which are well governed have already learned the lesson of utilizing for commercial purposes this waste of our cities which is daily deposited in cans for the collector to take up. As for instance, Los Angeles three years ago established a sanitary garbage plant, contracting with a reduction company from which it received 51 cents a ton for all garbage produced by the city.

As the garbage of Los Angeles amounted to about 200 tons a day the city received \$100 a day, approximately, for this waste product, while, on the other hand, the reduction company manufactured large amounts of fertilizing material, which is readily marketed for some \$15 a ton. It also recovered the grease which is a component element in the manufacture of nitroglycerine, The California farmers have discovered that this fertilizer is unsurpassed, especially for citrus fruit, because it is right in order to the city received \$100 and any approximately. The California farmers have discovered that this fertilizer is unsurpassed, especially for citrus fruit, because it is right in order to the city received. nitroglycerine. several one-hundred-dollar bonds of the American Graphophone Company were sold at \$6 to \$6 on yesterday's session of the local stock exchange, no full-sized bonds being offered under \$9, so that the total sales, \$300 in all, were practically no indication of the market.

A sale of ten shares of Union Trust at 121 and four shares of Mergenthaler completed an unimportant session. Bid and asked prices were generally far apart, and there was no disposition to do business.

Preliminary indication are that the savings banks of the city will show a satisfactory net gain in their deposits as of November 20, compared with the totals of September 11, the date of the previous call, despite the fact that they must necessarily have lost considerably through the withdrawals of savings to invest in liberty bonds.

Gains so far reported were as follows: Bank of Commerce and Savings Maryland and Virginia nee held force.

siderably t..rough the withdrawals of savings to invest in liborty bonds.

Gains so far reported were as follows: Bank of Commerce and Savings, 38,484; Home Savings, 334,897; North Capital, \$21,236; Park Savings, \$324,897; North Capital, \$21,236; Park Savings, \$324,897; Security Savings and Commercial, \$345,132; Union Savings, \$67, 207; Potomac Savings, \$192,819.

The Dupont National reports \$33,494 increase; the Lincoln National, \$17,798 gain, and the National Capital, \$2,216 gain.

All indications point to more than \$130,000,000 deposits.

## N. Y. STOCK MARKET REACTS FAVORABL

Reported Capture of Cambris Causes Prices to Jump.

By STOXON WALL.

New York, Nov. 28.—The stock market today showed a cheerful tone, reacting favorably to the news from the war fronts. A report circulated on the floor of the exchange during the afternoon that the British had captured Cambrai, caused prices to move up 2 to 3 points, but these gains were off towards the close of the session. Prices see-sawed during the were off towards the close of the ses-sion. Prices see-sawed during the morning, their range being narrow. It became evident during the day that stocks were in good hands, a moderate but strong investment buy-ing taking up the loose supplies of securities. The feeling among pro-fessionals that the market was to take on stability found its way to all

traders, and general optimism was the keynote of the session. However, not all securities moved in the current of good feeling. Rails showed gains as a general thing, but some of them suffered small losses. Canadian Pacific lost one point; Northern Pacific 5-8 and Pennsylvania railroad 1-2. Delaware and Lackwanna gained 2 points, Delaware and Hudson 11-2. The government's heralded pooling

scheme was prophesied by some as a forerunner of Federal ownership. Tobacco stocks were strong, Ameri-can Tobacco being the only exception. showing a loss of one point. To bacco products gain 2 points and United Cigar Stores 2 1-4 points. Steel and Marine preferred showed large gains; the latter, selling 1 1-2 points above yesterday's final price Republic Steel gained 11-4 points Republic Steel gained 11-4 points, United States Steel, 13-4 points; Beth-lehem Steel B., 15-8 and Gulf, 2. The day's sales were small, 430900 shares, with United States Steel's por-

#### CHICAGO GRAIN MARKET.

By JOSEPH F. PRITCHARD. Chicago, Nov. 28.—Many of those who were in the market a week ago and anxiously bidding for eash corn and futures played the waiting game today. The run of corn was larger and this was reflected by declines of "4 to %c. In the various futures and by the further sensa-tional price losses is the by the further sensa-

roads are now delivering equipment to the Western lines.
Had not the larger commission houses bought
freely today, the losses would have been much
greater than those suffered. As it was, the deelines were 1% to 1%, and this, too, in the
face of export sales of 400,000 bushels and domestic sales of 50,000 bushels. The cash transactions
were partly consummated late Saturday.
Receipts of hogs at the leading Western markets were 180,000 today, compared with 135,000 a
week ago and 180,300 a year ago. Today's receipts were in excess of last year for the first
time in a long period. The trade expects 31,500
hogs at Chicago tomorrow morning. The trade
in cash meats and lard was reported fairly active, with exporters the principal buyers.

#### American Flyer Escapes From German Captors

Hammond. Ind., Nov. 2.-Lleut. Alvo O. O'Brien, now an "ace" in the Royal English Flying Squadron, and whose home is near here, has escaped from a German prison and is safe behind the English lines, according to a cablegram received by his mother, Mrs. Maggie O'Brien, today from English authorities. O'Brien was captured on the Verdun front last August when he and

dun front last August when he a companion were attacked by five German planes, O'Brien's companion his machine was put out of commis

Rice hulls are being used in Italy as a substitute for coal. It is estimated that there are about 200,000 tons of hulls available for this pur-
